"Per Aspera Ad Astra"

# *The* TRIANGLE

PUBLISHED BY THE  
STUDENT BODY  
OF  
SOUTHERN JUNIOR  
COLLEGE  
COLLEGE DALE, TENNESSEE

There is a destiny that makes us brothers.  
None goes his way alone,  
All that is sent into the lives of others  
Comes back into our own.  
—Edwin Markham.

# ★ FOREWORD

A decorative graphic consisting of several grey stars of varying sizes and several thick, grey, parallel lines that intersect and radiate across the page, creating a sense of movement and depth.

VALUE is invariably determined by relative difficulty of attainment. That which is to be had for a song loses desirability in proportion to the ease with which the song is sung. We appreciate most those things for which we must work, sacrifice, pray. If all our desires were to be gratified when we merely express them, we would have less happiness than now, when we are forced to forego some things we might enjoy. Real appreciation comes not wholly with gratification of desire, but greatly in making that gratification possible. So through difficulty we strive for the star of our culminating hopes and efforts. We, the staff, respectfully present Vol. II of the TRIANGLE to our readers.

# DEDICATION ★

For his untiring efforts on behalf of Southern Junior College and its many students, who count him their friend, we dedicate this volume to the head of our science department, R. W. Woods.

Better to stem with heart and hand  
The roaring tide of life, than lie  
Unmindful on the glittering strand  
Of God's occasions floating by.  
—J. G. Whittier.

### THE TRIANGLE CLUB

On January 9, 1939, the constitution of the "Triangle Club" was ratified, marking the formal organization of a dormitory club in South Hall. Its object is to cultivate in its members the triangle of essentials of Christian manhood: physical, mental, and spiritual powers.

Club meetings are held weekly and provide opportunities for training and development as well as entertainment. (The first semester officers are on the top row.)

### THE JOSHI JOTATSU KAI

Every Thursday evening during the school year, the residents of North Hall gather in the parlor to enjoy the meeting of the "Joshi Club." The programs presented are varied and interesting. The practice of having friendship friends is one that is enjoyed by all, and the development of individual talent is encouraged. The aim of the Joshi Jotatsu kai is to instill in the hearts of its members the ideals of "beautiful girlhood."

### THE LITERARY SOCIETY

This club was organized for those students who have a definite interest in creative and original writing, its purpose being to sponsor and provide an outlet for their articles. Students are encouraged to write such articles as appear in our denominational papers. Through the "Southland Scroll" they have opportunity to see their literary efforts in print. President, Charles H. Plyer, III, Vice-president, Nellie Smith. Secretary, Eunice Edgmon.

### THE ART CLUB

In order that those possessing talent along the lines of drawing and painting might have a broader opportunity for self-expression, an Art Club has been organized. With Professor Woods as sponsor, the club has enjoyed many pleasant and profitable hours working together with brush, pen, and pencil. Thus the members have gained much valuable practice. President, Louise Scherer, Vice-president, Paulston Hooper, Secretary-treasurer, Margarette Seilaz.

## Religious Activities

The servant of the Lord has said that true education is the harmonious development of the physical, mental, and spiritual powers. By the study of the great prophecies in Daniel and Revelation, the fundamental doctrines, and the dealings of God with His people in Old and New Testament times, the end of true education is attained. For those in the ministerial group, study of New Testament Greek is offered, whereby they may know the truth more exactly.

By participating in the various religious activities of the school, we are able to make profitable use of the knowledge we have gained. The Sabbath school is endeavoring to fulfill its purpose of soul-winning, by helping us rightly divide the Word of truth. This also is the purpose of the Missionary Volunteer Society and all its Progressive classes, the Colporteur band, and the Ministerial seminar. The seminar is the classroom, the field is the laboratory. At present, work is being carried on by students in Silverdale, Standifer Gap, Georgetown, Birchwood, Ringgold, and Apison. We sincerely believe that it is through a study of the inspired message from above that we are prepared for a place in the service of the Lord.

## SCIENCE DEPARTMENT

The science department of Southern Junior College offers instruction in the chemical, physical, and biological sciences, and it is in this group that we find the majority of the laboratory courses which are offered in the school. The physics laboratory boasts a new ten-inch reflecting telescope, a four hundred fifty watt shortwave radio transmitter, and the complete line of apparatus necessary for teaching physics and radio.

The chemistry laboratory is equipped with a large stock of glassware, laboratory balances with accuracy up to one ten-thousandth of a gram, and a stock of chemicals valued at twelve hundred dollars. In the biology department, we have all the materials necessary for teaching bacteriology, physiology, biology, and zoology.

## Recreation

We realize the importance of keeping our bodies in condition, so every boy and girl is required to have physical training at least one hour a week. The boys usually spend their period playing volley ball, and the girls take hikes or play soft ball. An interesting part of the recreation at the college is the Friday afternoon baseball game. These active games not only give the boys needed exercise in the open air, but they also teach fair play and sportsmanship. Next year when school opens, Collegedale will have two fine tennis courts ready for use. Southern Junior College is endeavoring to give the students a rounded education, looking after not only their spiritual and mental condition, but their physical well-being also.

## *.. of the Alumni*

Despite the fact that the pursuance of a further educational goal has brought upon many of you a double allegiance, we still have an abiding faith in the love and loyalty of every alumnus, and hope that when our present project- the erection of a modern infirmary shall have been realized, not one name will be missing from its foundation stones.

Why not begin the next school year with a resolution to keep the College and all the members of the Alumni Association in closer touch, each with the other, by contributing to a special column in the "Scroll"?

Though some of you may be penetrating dense jungles, fording swollen streams, or listening to booming guns, you are still members of the "beautiful flock" which God, through all the years, has been giving to Southern Junior College, and ever will you be followed by the earnest prayers and tender solicitude of your Alma Mater

Mrs. Hill  
Treasurer

Mrs. Dert  
Secretary

## *Tie This*

Dedicated to Charles H. Plyer, III

Some may long for the soothing touch  
Of lavender, cream, or mauve,  
But the ties I wear must possess the glare  
Of a red-hot kitchen stove.  
The books I read and the life I lead  
Are sensible, sane, and mild  
I like calm hats and I don't wear spats  
But I want my neckties wild!!

Give me a wild tie, brother,  
One with a cosmic urge!  
A tie that will rear and rip and tear  
When it sees my old blue serge.

Oh, some will say that a gent's cravat  
Should only be seen, not heard,  
But I want a tie that will make men cry  
And render their vision blurred.  
I yearn, I long for a tie so strong  
It will take two men to tie it,  
If such there be, just show it to me -  
Whatever the price, I'll buy it!

- 28 Alumni Breakfast. Commencement.

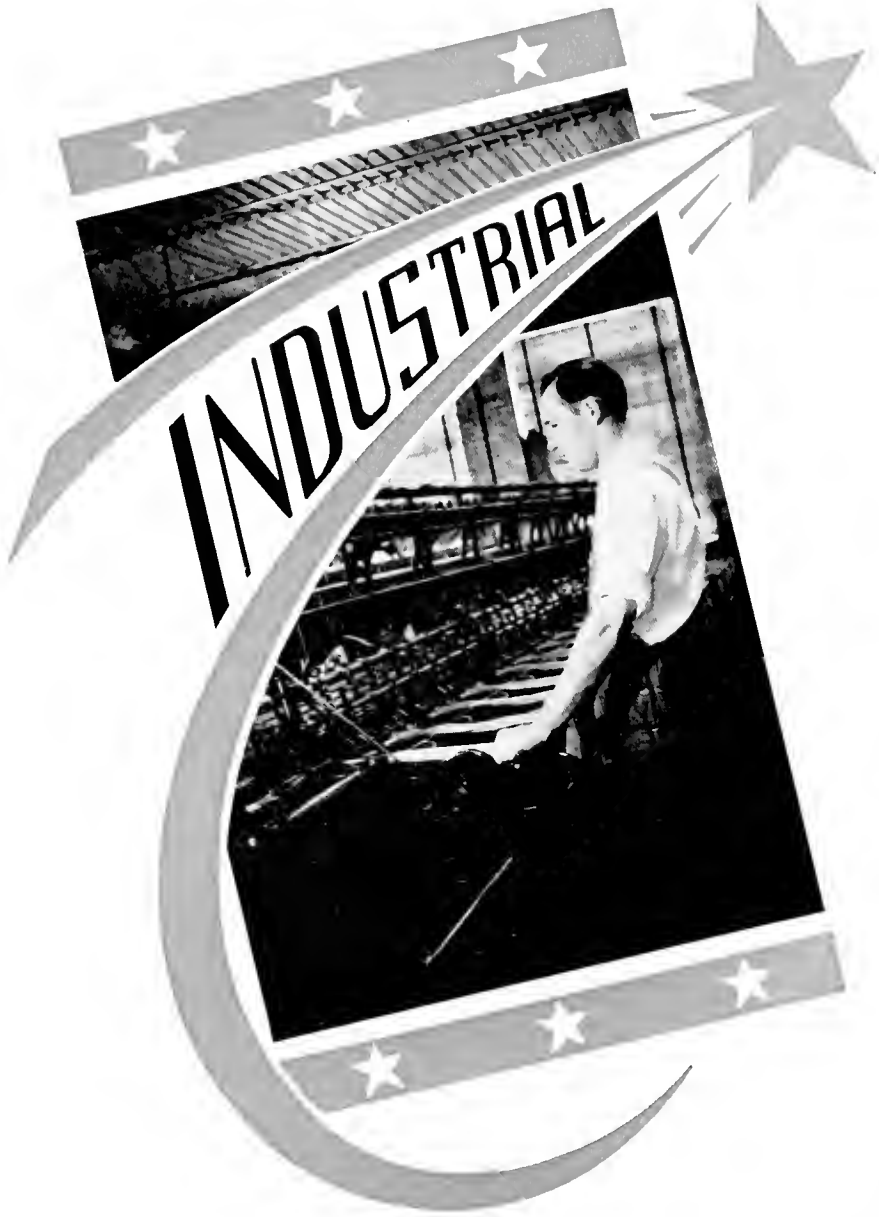

## *We Appreciate*

the kindness and understanding of all those who have helped in the publication of this second volume of the TRIANGLE. Many have spent long hours, giving valuable aid. We take this opportunity to especially thank Mr. Roger F. Goodge of the College Press, for his help in more ways than one; Mr. Richard E. Wood, for his patience and efforts on much of the portrait and group photography; Mr. W. D. Saunders of the Knoxville Engraving Co. for his ideas and suggestions; Mr. H. K. Tice, for the excellent work done by the Kingsport Press on our cover; the advisory committee for its sympathetic counsel; those who submitted snapshots to brighten these pages—especially Mr. Arthur Hall, whose prize-winning picture appears on page 57; Mr. Harold Beaver and Miss Marguerite Strickland, leaders of Band No. 2; Mr. Finland Shorter and Miss Mattie Mae Carter, leaders of Band No. 1, winners; Miss Carter, for her excellent work with the business manager in handling the business of the TRIANGLE; all others who did their part in circulating and subscribing to this production, which we earnestly hope has been a worthy one.

The TRIANGLE staff

Nothing is denied to well-directed labor  
Nothing is ever attained without it.

Sir Joshua Reynolds

## *Farm and Dairy*

Under the competent supervision of Mr. Halvorsen, the Southern Junior College dairy employs ten workers and has a herd of thirty-eight cows and thirty-five heifers and calves. The dairy, housed in a two-story barn and a milk-house containing an ice plant and two storage rooms, produces Grade A milk, in addition to chocolate milk, cottage cheese, and like products.

The college farm employs sixteen students, and has six heads of work stock, four mule colts, seven horse colts, and a saddle horse. The farm is listed as one of the Demonstrated Farms co-operating with the T. V. A. and Tennessee University. In the past year, many terraces have been built, forty acres of hill-side have been seeded in permanent pasture, two hundred fifty tons of lime have been spread, and twenty tons of 43 per cent Super-Phosphate, furnished by the T. V. A., have been used. Last fall sixty-five acres of small grain and twenty-five acres of crimson clover were sowed. As far as possible, the land is kept covered during the winter.

## *Broom Factory*

The broom factory furnishes work for twenty young men each year, under the management of Mr. Gepford. During the year, 14,400 dozen brooms are manufactured. For such a production, 165 tons of broom corn, seven tons of broom wire, three and a half tons of broom twine, and four car loads of broom handles are used. One day's work produces sixty dozen brooms more than a broom every minute. Each year twelve tons of mop yarn are used in the manufacturing of 2,400 dozen mops. On the average, ten dozen mops are produced in one day.

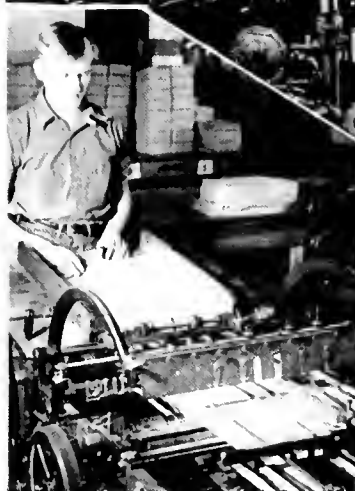

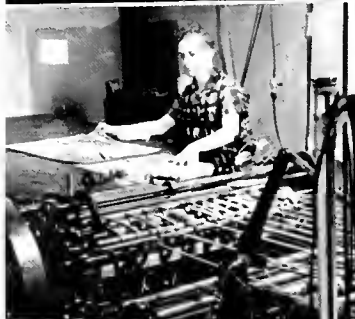

Besides a large wholesale trade in the city of Chattanooga, the broom factory keeps two men steadily employed as salesmen in the states of Georgia, Tennessee, Kentucky, North Carolina, Virginia, West Virginia, and Alabama. This important industry, which during the past year has doubled the size of its building and added new machinery, pays out over eight thousand dollars to students each year, thus helping them put the "earn" into "learn."

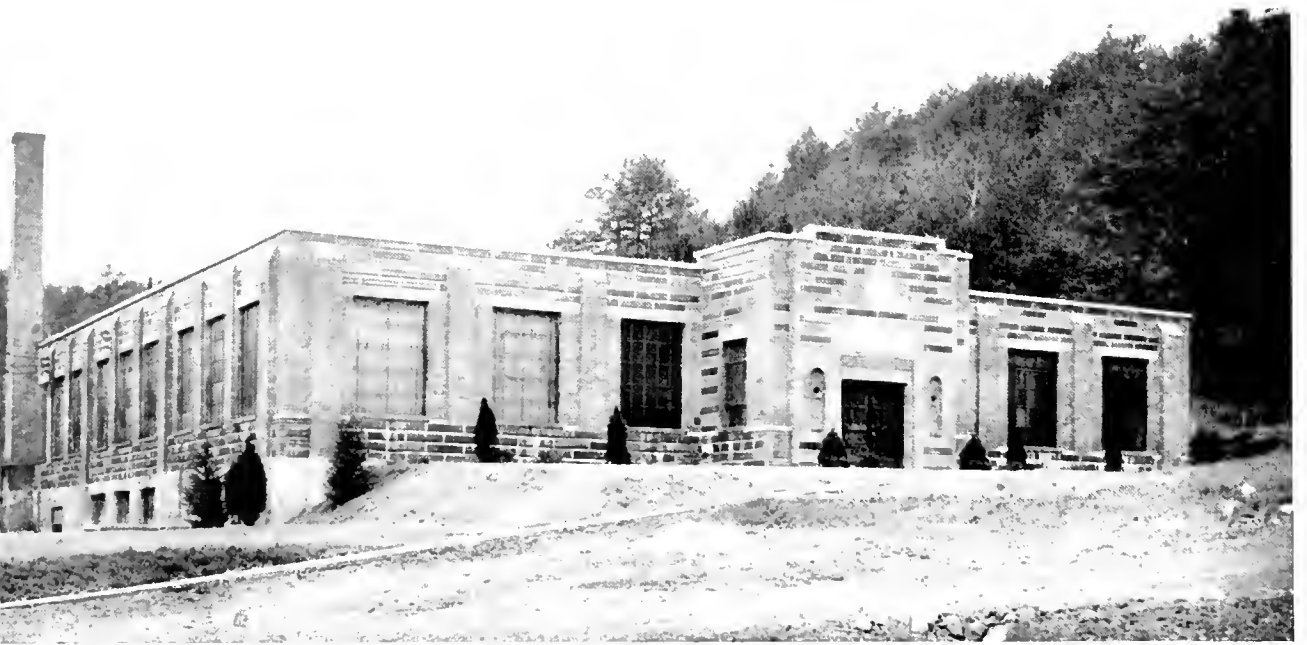

## *College Press*

Thomas A. Carlyle once said, "Every person should know something of the art of printing." No matter what type of business one may practice, a knowledge of printing will prove to be of value. Not only is a training in printing desirable for the intrinsic value of the trade itself, but also for the opportunities for character development it affords. The exacting quality of the work tends to teach the student thoroughness, efficiency, accuracy, and patience.

Here at the College Press, under the direction of Mr. Goodge, twenty students receive invaluable training in one of the best trades, most of them working the major portion of their school expenses. Our well-equipped shop handles a great volume of business, much of it being the finer type of job printing, color work, and book and catalog publishing.

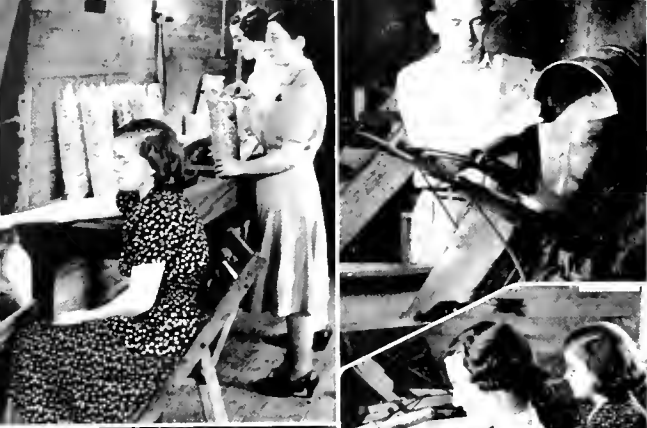

## *Hosiery Mill*

One of the most important industries at Southern Junior College is the hosiery mill, managed by Mr. Carnahan. The sixty students employed in this industry are working their entire way through school. There are two shifts of workers: the high school students are employed in the afternoon and evening, the college students in the morning. The machinery consists of nine leggers, four footers, seven seamers, and three loopers. The building, which was built in 1937, is air-conditioned and very modern.

For a number of years, many students have defrayed all their school expenses by working in the hosiery mill. More and more the mill is becoming a desirable place in which students may work, and thereby gain a christian education.

## *Puffery*

The college puffery furnishes work for five students in the building located on the side of Reservoir hill, behind North Hall. An average of one hundred dozen packages of Golden Grains are produced in one day, from superior quality western wheat. The cellophane bags are made by the students in the shop. Five men are employed as salesmen in the Southern states, and orders are sent out almost daily by express or by truck.

## *Wood Products Factory*

In a large two-story building, fifteen students earn between three and four hundred dollars each month, manufacturing ironing boards, step ladders, kitchen stools, lawn chairs, and venetian blinds. Approximately one car load of lumber is used each month, with the productions amounting to about two thousand dollars. Two salesmen are employed in the Southern states, much of the business being done with Sears, Roebuck & Co.

The puffery and the wood products factory are both under the capable management of Mr. Huxtable.

### *Laundry. Kitchen. Bakery*

The school laundry, which serves the community as well as the dormitory students, furnishes work for fifteen young people, under the direction of Mrs. Leslie Pitton.

Mr. and Mrs. Joe Painwater superintend the dining room and kitchen, employing twenty-three students. Last summer eight hundred gallons of peaches, and four hundred gallons of beans were canned for winter consumption.

The bakery employs three workers. Each week four hundred loaves of bread, seventy-five dozen cinnamon buns, and a number of pies and cakes are made. The bakery products serve only the school kitchen.

## A FINISHED COOK'S RECIPES

### Soyburger Salad

- 1 can SOYBURGER 14 oz.
- $\frac{1}{2}$  cup shredded cabbage
- $\frac{1}{4}$  cup chopped onion
- $\frac{1}{2}$  cup shredded carrots
- $\frac{1}{4}$  cup chopped celery
- $\frac{1}{4}$  cup mayonnaise

Chop and shred the vegetables finely. Mix vegetables together thoroughly. Add Mayonnaise. Cut SOYBURGER into pieces about one inch square. Mix this with vegetables and then mash this mixture with hands or potato masher until the pieces of SOYBURGER are mixed thoroughly through the vegetables. Add salt to taste. Serve on crisp lettuce. This serves 8 liberal salads. For a more dressed meat flavor add Bacon Yeast, Savita, or Vegex. This is an excellent way to eat raw vegetables. Mayonnaise may be eliminated for the reducing diet.

### Soyburger Salad Sandwich

The above Soyburger Salad may be used as a sandwich spread. Spread a thick filling of it on thin sliced bread with or without butter and leaf of lettuce. Toasted bread may also be used. For the reducing diet eliminate butter and use rye bread or bran bread, etc. Excellent on Rye Krisp or Madison Bran Wafers, Whole Wheat Waters, or Soy Things. Each one of these Madison Waters contains wheat germ. Served in this way the combination of foods is properly balanced to produce an alkaline reaction.

### Soyburger Steak with Vegetable Sauce

Slice Soyburger into one-half inch slices, the full round size of the can, either 30 oz. or 14 oz. Place in a well-oiled pan and brown well on both sides, either on top of the stove or in the oven. When finished, cover with the following hot vegetable sauce.

- 1 cup chopped cabbage
- 1 cup chopped onions
- $\frac{1}{2}$  cup chopped celery
- 2 cups tomato soup or puree

Place onions in oil in a container with lid, until half done. Stir occasionally to prevent sticking to bottom. When onions are half done add the chopped cabbage and celery and add more oil as desired. When two-thirds done add tomato soup or puree. Then add salt, sugar, and Madison Sauce as desired. When the mixture boils, it is finished, ready to serve on the browned slices of Soyburger.

### Available at

Health-food stores and specialty groceries. If not obtainable locally, order direct from Madison. Transportation charges paid on orders of \$2.00 and over. Add 20 per cent west of Denver, Colorado.

FREE! Spring-summer Madison Health Messenger, with requested recipes.

## *Collegedale Hosiery Mill*

In the eight years that COLLEGEDALE HOSIERY MILL has been operating it has expanded to such an extent that three years ago a new building had to be erected in order to successfully carry on the necessary operations. The air-conditioning in the new building affords a complete change of air every six minutes, thus enabling the machines to operate more satisfactorily and making the plant a more healthful place in which to work.

COLLEGEDALE HOSIERY MILL offers work to approximately 60 students who are not only working their entire way through school, but their work in the mill affords them a little cash each week. The boys are able to draw from \$5 to \$7 a week above their expenses and the girls often draw from \$3.50 to \$5.00 weekly. Several new workers are needed to fill the places of those graduating.

Here is an opportunity for any student who earnestly  
desires a Christian Education

## *Memories*

So often life just trudges on,  
We only know it's passing by,  
And then we hear a note, a song,  
From out the years a haunting cry

We pause, and live again the years  
That we have trod so oft before.  
We feel again the joys and tears  
And then we softly close the door

And travel on our way again  
With life that now seems commonplace  
But in the years to come will gain  
A place that time cannot efface

— O. Barnes Dayton.
